flash a smile

Always wanted a Hollywood smile but didn't have the time or were worried about sensitivity? Then you need to visit the **London Centre for Cosmetic Dentistry**. They've just unveiled the new Wy10 whitening system, which promises dazzling results in a fraction of the time regular treatments require and with far less sensitivity. Thanks to three new concepts – a purer form of hydrogen peroxide, an activator in the whitening gel and the most advanced tooth-whitening light on the market – the Wy10 offers truly revolutionary results. (£775).
